

## **CROSSWALK REPLACEMENT & REPAIRS**

### **EXPECT SOME DELAYS, ROAD CLOSURES AND DETOURS**

A contractor was given the notice to proceed repairing and replacing the stamped brick crosswalks in the old town area of Cottleville. Please be patient and cautious while crews work. Expect some delays and detours during this time while construction continues. Contractors have already finished the side street crosswalks but plan to close Highway N on MONDAY, JUNE 12th at 6:00 am (weather permitting) to repair the 8 stamped brick crosswalks that CROSS HIGHWAY N (shown in yellow). This is expected to last approximately 2 days. Main Street, 5th Street and cross streets are planned to be open for detours. All businesses should be accessible throughout the construction process with the alternate routes and detours (shown in red). Please contact City Hall with any questions.

# Crosswalk Replacement Traffic Flow

\*St. Charles St, Oak St, and Chestnut St will remain open to traffic while Hwy N is closed.
