A. Certificate of Appropriateness for the demolition of the existing structure at 5540 Chestnut Street.

Nothing new from the applicant at this time. Item A above remained tabled.

**New Business**

A. Certificate of Appropriateness for the installation of a satellite dish at 5366 Fifth Street.

The applicant was present for the meeting and provided a picture of the small satellite dish or receiver to be mounted on the side of the building used for providing the business wireless internet. It was noted satellite dish “should” not be permitted in the old town historic district. It was noted the code is 20+ years

old and may be referring to the large satellite dishes once placed in yards. However, it was the desire of the commission to have the applicant's receiver place where it can not be seen from the road. The applicant stated as soon as an underground Wi-Fi provider is available he plans to switch to them as this is an expensive provider.

Terry Hogan moved to approve item A above contingent upon the receiver is mounted in a location on the building less visible from the street. Steve Lierman seconded the motion. Motion was carried by affirmative votes of six (6) members. There were no nay votes and no abstentions.
